Subject: License Renewal Radioactive Materials License No. 950-0139 and
License No 210-0090

Dear Mr Awai:

Acting on your suggestion, and pressed for time which essentially eliminates any other immediate alternatives, I request that your Department accept me as the Radiation Safety Officer for Umetco Technology, Installation LR-0090. You already have my curriculum vitae and agreed in principle that I was qualified. I have also agreed to be the Radiation Safety Officer for the Production Facilities contiguous with Technology. Mr George Parker has corresponded with you in regard to their license.

Please advise me if there is any other formal procedure I must follow to meet your requirements.

Very truly yours,

R. J. Klotzbach
